

Agencyport Mobile

The world of insurance... in your pocket.

It's clear, mobile has arrived. And it's changing the face of insurance. Demand for smartphone and tablet apps for everything from customer quoting and e-billing to claims reporting is sky rocketing. You know that offering mobile capabilities will increase your efficiency, boost your brand, source new business and make customers and producers happy, but how do you get there? You need a partner with the technology and know-how to make it happen—one with leading multi-channel distribution technology and multi-platform mobile development. You need Agencyport.

The power of our products, wherever you need them to be.

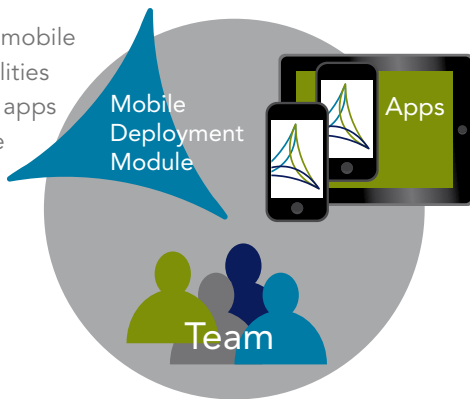

We're as excited about mobile as you are. And to prove it, we're extending our entire suite of products out to the street—into the hands of those who matter most to you: your staff, producers and policy holders. Imagine your workflow and company-unique product definition and rules, pocket-sized. Same muscle, same flexibility, same efficiency, on the go.

Just the right app.

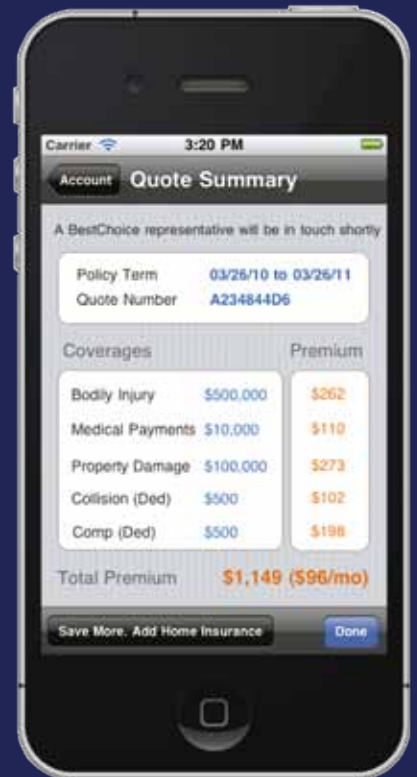

Ever think about the possibility of giving your customers the ability to quick quote from their iPhone? Your underwriters the decision-making power of Open+ on an iPad? Your agents or brokers the convenience of getting business done from the golf course? Claims adjusters the option to scan a vehicle identification number or registration plate from their device's camera? We can help you make it happen. Let us know what your mobile dream is. We love a challenge.

What is Agencyport Mobile?

Integrating mobile web capabilities and mobile apps to your core systems.

An array of high value mobile apps designed for all major mobile operating systems.

A team of mobile experts helping carriers develop mobile strategies, mobile-enable core systems, prototype ideas quickly, and support and maintain apps.

Get in the game, quickly.

Whether you're on the AgencyPortal™ framework or not, Agencyport's mobile abilities are quick and easy to deploy, making it simple, cheap and low risk to unchain your key agents, customers and staff; expedite workflow; and differentiate yourself from the competition.

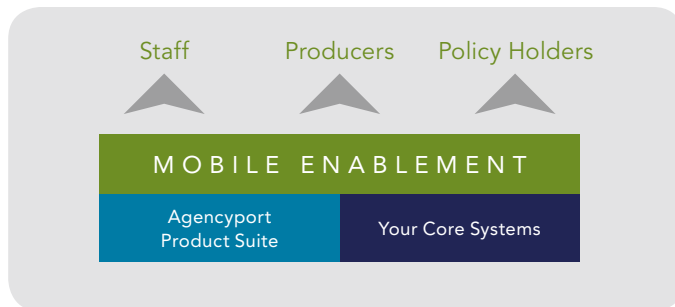

The smart choice.

Mobile developers are everywhere. Why Agencyport? Simple: we know the industry. Our mobile services group has unparalleled experience building applications specifically for insurance. We are also powered by leading front-and back-end solutions, allowing us to offer mobile software that immediately enables product transaction definition, underwriting rules, and workflow that integrates with processes you already have in place.

Satisfaction isn't optional.

At Agencyport, we see each new customer as a future reference. We've been guiding the top insurance companies in the world for over 40 years, and they keep coming back. We know the industry. We've seen the issues before. And we're not afraid to improve on any of it. With hundreds of successes under our belt, we bring unmatched knowledge, perspective and insight to each new project, including the mobile frontier. But don't take our word for it, ask any of our customers.

Contact us at: mobile@agencyport.com.
Together, we'll get you into the game.

IMAGINE...

Your customers submitting claims with their camera-enabled smart phone, right at the scene of an accident.

Being the first carrier to offer 24x7 quick quoting for auto insurance via mobile devices by converting a photo of the license plate into XML to get VIN info.

A broker in London delivering submission forms and claims slip information to Lloyd's on an iPad with live links to Google Earth, leaving the messy slipcase at home.

An agent filling out a submission application while at a client site or being able to give them answers in real time about the status of a claim.

Your underwriters reporting on a book of business or updating the status of an endorsement away from the office.

Customers paying all their bills on time with easy-to-access online bill pay.

THEY'RE ALL POSSIBLE. WHAT'S YOUR MOBILE DREAM?

Mobile_US2011
